DETAILED ACTION

1. The IDS submitted 10/09/03 has been considered, however only pages 1 and 2 of the three pages were enclosed.
2. The rejections of claims 11, 12-22 and 27-32 are withdrawn in view of applicant's amendments.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 23-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Snownet.

As per Claim 23.

Snownet discloses:

- a collection subsystem for obtaining information from at least one data source, see page 31, lines 4-5;
- b) an analysis subsystem for filtering said obtained information to identify travel characteristics of said obtained information, see page 34, lines 1-4 and page 35, lines 3-22;
- c) a distribution/storage subsystem for directing said filtered data to at least on a portion of said system for providing travel related information, said distribution/storage subsystem having a component for classifying said filtered data as supplemental content or an alert, see page 34, lines 35-43.

As per Claim 24.

Snownet further discloses the collection subsystem includes a means for applying queries to obtain information, see page 35, lines 15-20.

As per claim 25.

Snownet further discloses analysis subsystem includes a filter pipe and an index pipe, see page 31, lines 4-12, and page 35, lines 3-9.

Allowable Subject Matter

4. Claims 11, 13-22, 27-32 are allowable.
5. The following is a statement of reasons for the indication of allowable subject matter:

As per Claim 11, and 27.

The prior art of record, specifically, Ehret et al (5,006,985) in view of Tagawa (WO 97/17680) further in view of Simpson et al (5,999,882) does not disclose or fairly teach a content identification segment for performing identification of potential information sources.

The claims that depend from the above claims are allowable for the same reasons.

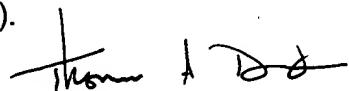

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
